## WEEKLY UPDATE WITH PHOTOS

### For week commencing 16th January 2023

- Demolition of the Thames View House building has continued this week, with concrete materials being crushed & steel components being transported away for recycling.
- Next week we will continue to crush, separate, & transport hardcore and other materials away from the site for recycling.
- The high-reach excavator has successfully transported away from the site earlier this week.
- Our dust monitoring system is being used on a daily basis to ensure that any dust created is below the acceptable standards. “Boss” dust suppressors & water jets are used to damp down when required.
- We hose down & sweep the site access road regularly.
- We will continue carrying out noise monitoring daily to ensure this is within permissible levels.
- We will continue emphasising the need to adhere to the transport management plan with all involved. Vehicles approach the site from Sunbury Lane, then Franklyn road, & exit via Russell road.
- We will continue to clean the surrounding areas regularly to ensure minimal impact on our neighbours. Should it be deemed too windy, the demolition works will be halted.
